

Products

Anti-Freeze, Remanufactured

Contract #: VEH67 **OSD Update #:** 07-13
Expiration Date: **06/30/07 (w/one 12-mo. option to renew)**
Procurement Team Leader: **Ron Whitaker (617) 720-3112**
OSD Environmental Contact: **Marcia Deegler (617) 720-3356**

Contract Summary: These products are included as part of Contract # VEH67, Motor Oil, Re-Refined, Anti-freeze and Other Lubricants. This portion of the contract (Category II) provides recycled anti-freeze made from 100%-recycled ethylene glycol in both ready-to-use and concentrated forms and in 1 gallon and 55 drum quantities.

Contractor Name	Contact Information	Recycled Anti-freeze Specifications
Consolidated Recycling Technologies (CRT) PO Box 239 Bridgewater, MA 02324	Debra J. Bevis Phone: 800-833-8278 or 508-697-3147 deb.bevis@consolidatedrecycling.com	<ul style="list-style-type: none"> All antifreeze meets the cooling, freeze protection, and corrosion resistance requirements of gasoline, diesel, propane and natural gas engines with or without aluminum blocks. Meets latest GM, Ford, Chrysler specifications Meets 11 ASTM Standards Meets ASTM D3306 standards and passes the ASTM D4340 Aluminum Corrosion Test

Product Description and Pricing

(all pricing includes delivery)

Brand Name	Product Description	Application	Quantity	Cost Statewide
CRT Domestic Pre-Mixed Antifreeze	Antifreeze, 100% Remanufactured Ethylene Glycol Ready-to-use (diluted)	All vehicles	one gallon 55 gal drum Other	\$3.70 \$121.00 \$ N/A
CRT Extended Life Pre-Mixed Antifreeze	Antifreeze, 100% Remanufactured Ethylene Glycol Ready-to-use (diluted)	For use in vehicles with extended life products	one gallon 55 gal drum Other	N/A \$181.50 N/A
CRT Heavy Duty Antifreeze Pre-Mixed Antifreeze	Antifreeze, 100% Remanufactured Ethylene Glycol Ready-to-use (diluted)	For heavy duty truck applications	one gallon 55 gal drum Other	N/A \$181.50 N/A
CRT Heavy Duty Extended Life Pre-Mixed Antifreeze	Antifreeze, 100% Remanufactured Ethylene Glycol Ready-to-use (diluted)	For heavy Duty trucks with extended life products	one gallon 55 gal drum Other	N/A \$211.75 N/A
Uni-Gard Windshield Washer Antifreeze – 20 *	Windshield Washer Solvent Ready-to-Use	All vehicles	one gallon 55 gal drum Other	\$1.40 \$66.00 N/A
Uni-Gard Windshield Washer Antifreeze – 20 *	Windshield Washer Solvent Concentrate	All vehicles	one gallon 55 gal drum Other	\$4.20 \$198.00 N/A

For the remanufactured antifreeze products there are only ready-to-use (diluted) products offered by this vendor. The Volume Discount of 10% for orders of 10 drum or more will apply to all products indicated. Prompt Pay Discount: 5% - Net 10 Days

Value-Added Service: CRT also offers a "closed loop" recycling system for the collection and recycling used antifreeze at no additional cost to customer. Call CRT for details.

Bio-Based Lubricants, Equipment and Automotive

Contract #: VEH67	OSD Update # 07-13
Expiration Date:	06/30/07 (w/one 12-mo. option to renew)
Procurement Team Leader:	Ron Whitaker (617) 720-3112
OSD Environmental Contact:	Marcia Deegler (617) 720-3356

Contract Summary: Vegetable oils, or bio-based products as they are often referred to, are included as part of Category III, Motor Oil, Re-Refined, Anti-freeze and Other Lubricants to provide a value-added, environmentally preferable alternative to a variety of petroleum-based products. These products, made from corn, canola, soy, and other vegetable oils are being used to produce a wide range of lubricants.

The majority of companies manufacturing plant-based lubricants have focused primarily on industrial oils. Within this category, certain applications are best suited for plant-based lubricants. These include hydraulic oils, total loss lubricants, metalworking oils and other general oils. The bio-based lubricants contained on this contract meet original equipment manufacturer (OEM) product requirements and use the same American Society for Testing Materials (ASTM) standards as petroleum based fluids.

Users are finding that vegetable oils can offer even better performance than petroleum oils in some applications, with the added benefits of being less toxic, renewable and biodegradable, thus posing a greatly reduced threat to human health and the environment. For instance, when spilled, bio-based products pose NO immediate threat to the surrounding environment. Conversely, spilled petroleum can contaminate streams, kill vegetation and harm wildlife and carry a costly remediation.

Building Materials and Supplies

Contract #: FAC27
Expiration Date: 04/01/08 (w/two 24-mo. options to renew)
Procurement Team Leader: Joseph Lydick, 617-720-3139
OSD Environmental Contact: Marcia Deegler (617) 720-3356

Contract Summary: This statewide contract allows

users to buy building materials and supplies in thirteen categories. The Environmentally Preferable Products listed below are available from the specified vendors according to Region. The contract also features two new categories: Certified Wood (wood that was grown on plantations with improved and third-party certified management practices) and Sustainable Roofing Products. Since the contract was awarded very recently, not all the information on the EPPs available through it has been compiled. This page will be updated and reissued in the near future.

Carpet & Flooring Products and Services, Recycled

Contract #: FAC25	OSD Update # 04-04
Expiration Date:	08/16/07 (w/two 12-mo. options to renew)
Procurement Team Leader:	Dmitriy Nikolayev (617) 720-3351
OSD Environmental Contact:	Marcia Deegler (617) 720-3356

Contract Summary: This new contract covers the six product categories including modular carpet, broadloom carpet and vinyl composition flooring, most of which contain various amounts of recycled materials, as well as services associated with these **product categories**. The **services** are also available from Service Providers on the contract (labor will be subject to the current prevailing wage rate) include recycling of old carpet for virtually all carpet brands currently on the market, installation and floor preparation and cleaning, maintenance, repair and removal of carpet and flooring

The contract award was made to a pre-qualified list of thirteen (13) product manufacturers. Each of these manufacturers has designated one or more Service Providers (SPs – or local distributors) to sell and install their products to the Commonwealth and process all orders. Contract users may purchase any type of flooring product the Contractors supply under their awarded category, and should use the list of SPs to negotiate the best price and best value for their department. Products may be purchased as “goods only” or with installation & other services.

Product Specifications: All carpet and flooring products meet the specifications for heavy commercial traffic Class II wear, ASTM standards for flammability and static protection, stain resistance and more. Low VOC adhesives will be used and F.O.B. delivery is automatically included.

Value-Added Service: Recycling of Used/Worn Carpet: Under this new contract, **all** Service Providers are working with the manufacturers they represent to recycle virtually **all** used carpet products. The purpose is to eliminate this high volume of waste from the traditional means of disposal, which should serve to conserve landfill space and work toward the overall improvement of air quality.

Product Categories and Contractors

Product Categories	Product Description and Environmental Attributes	Awarded Manufacturers
Modular Carpet, Recycled Content Only	12 " carpet tiles All carpets offered in this category contain a minimum of 10% total Recycled Content (actual post-consumer content may vary)	C&A, Designweave, Lees, Mannington, Mohawk, Shaw
Modular Carpet, Reusable	12" carpet tiles While this carpet may not contain recycled content at the inception, it is capable of being refurbished to the point of rendering it a new carpet, thus avoiding the need and expense of purchasing new carpet.	Milliken Carpet
Broadloom Carpet, Recycled Content and Other	6' and 12' rolled goods These products must contain a minimum of 10% total recycled content, or be able to exceed that minimum within the second year of the contract.	C&A, Designweave, Interface, J&J Industries, Lees, Mannington, Mohawk, Patchcraft, Shaw
Vinyl Composition and/or Plastic Flooring and Tiles, Recycled Content Only	Vinyl tiles and Composition Flooring Plastic Tiles - Interlocking and Other All products must contain a minimum of 10% Total Recycled Content	Mannington, Smartware Products
Ceramic Tiles, Recycled Content Only	Ceramic Tiles All products must contain a minimum of 15% post-consumer recycled content and a total recycled content of 70%	To Be Determined

Product Categories and Contractors (continued)

Product Categories	Product Description and Environmental Attributes	Awarded Manufacturers

Catering Services: General, w/ Conference Space, & w/ Conference and Hotel Accommodations

Contract #: GRO21	OSD Update # TBD
Expiration Date:	New contract to be awarded Spring, 2007
Procurement Team Leader:	Betty Fernandez, (617) 720-3133
OSD Environmental Contact:	Marcia Deegler (617) 720-3356

Contract Summary: (As of April, 2007, this document is still in the solicitation phase). This contract is directed at providing a wide selection of catering services from vendors across the state. Such service may include general catering (brought to your site), catering in conjunction with conference space and catering provided by hotels that offer conference space as well as lodging accommodations.

The contract also is seeking to award contracts to catering services, that can provide environmentally preferable aspects to their services, such as biodegradable foodservice ware, reusable cups and plates, goods in bulk dispensers instead of individual packages, programs to donate leftover food to shelters, and more. In addition, preference has been given to conference centers and hotels that have implemented “green initiatives” to reduce their impact on the environment. Below is a brief description of what may be considered a “green” hotel or conference space:

Green Meeting Spaces and Hotels

Despite their positive economic contributions, meetings extract a high environmental cost. A green meeting space may consider the following: separate controls for heating and air conditioning in conference rooms, provisions for teleconferencing to reduce additional travel, located near public transportation and/or incorporating energy and water conservation techniques and practices.

Green hotel and/or lodging accommodations refer to a facility which is committed to being environmentally friendly through their facilities operations. Some examples include linen reuse, refillable toiletry dispensers, energy efficient appliances, water conservation devices, maintaining good air quality and purchasing EPPs.

Check www.compass.com and search under contract #GRO21 for more updated information.

Cleaning Products, Environmentally Preferable

Contract #: GRO16 **OSD Update #**04-05
Expiration Date: **03/31/07 (new contract out to bid in 2007)**
Procurement Team Leader: **Dmitriy Nikolayev, (617) 720-3351**
OSD Environmental Contact: **Marcia Deegler (617) 720-3356**

Contract Summary: This contract offers a broad selection of environmentally preferable cleaning products intended to replace the harsh chemical cleansers commonly used. Each manufacturer on the contract is represented by one or more local distributors. The products now offered on the contract meet a higher environmental standard developed by the independent third-party certification organization, Green Seal in their GS-37 standard for Industrial and Institutional Cleaners.

In addition, the products have passed a rigorous performance test conducted by the lab at the Toxic Use Reduction Institute (TURI) at UMass Lowell. The tests included several different soil types and surfaces considered most appropriate for the type of cleaner. Virtually all products passed with scores of at least 90% cleaning efficiency or better. Complete test results and a contract summary can be found on the web at

Other products available from the contractors:

- **Product dispensers** to ensure proper product dilution and staff safety. Contact the contractors or see OSD Update for more information.
- **Recycled content janitorial paper products** exceeding federal specifications for janitorial paper products. Contact the contractors or see OSD Update for more information.
- **Cleaning equipment** intended for use with the cleaning products approved for sale on the contract. Contact the contractors for more information or see the lists of available equipment by viewing the contractor information under the “Vendor(s)” tab for GRO16 on Comm-PASS.

Diesel Emission Control Retrofits

Contract #: VEH71 **OSD Update #:** 07-14
Expiration Date: 06/22/2007 (w/one 12-mo. option to renew)
OSD Environmental Contact: Marcia Deegler (617) 720-3395
Procurement Team Leader: Ron Whitaker (617) 720-3112

Contract Summary: This Contract was awarded in June, 2005 and features three qualified suppliers for various diesel engine emission control technologies and services. It provides Commonwealth buyers with a cost-effective method for reducing emissions from vehicles and heavy equipment and works toward the broader goal of improving air quality. Diesel exhaust in particular, is a significant contributor to air pollution and can aggravate asthma, cause lung damage and is a likely carcinogen. The products include:

Category I: Diesel Particulate Filter (DPF). A DPF is a ceramic device that helps prevent particulate matter in the exhaust stream from being released to the atmosphere. As the particles are trapped in the filter, the high exhaust temperature and catalytic coating on the filter allows the particles to break down (or oxidize) into less harmful components. DPFs can reduce particulate matter, hydrocarbon and carbon monoxide emissions by 60 to 90 percent. Engines using a DPF must be fueled with ultra-low sulfur diesel (ULSD) fuel.

Category II: Diesel Oxidation Catalyst (DOC). A DOC is a ceramic device coated with a catalyst that helps break down pollutants in the exhaust stream into less harmful components. DOCs can reduce particulate matter emissions by 20 to 50 percent, hydrocarbon emissions by 40 to 90 percent and carbon monoxide emissions by at least 20 percent. Engines using a DOC do not require the use of ULSD, but the performance of the DOC will be enhanced by the use of ULSD.

Category III: Particulate Reactor (DPR). DPRs are a metal device consisting of wound wire with a catalytic coating. It is designed to be a direct replacement for a muffler. As the exhaust flows through the wire and encounters the catalytic coating, a chemical reaction occurs that helps break the exhaust down into less harmful components. DPRs can reduce particulate matter, hydrocarbon and carbon monoxide emissions by at least 50 percent. Engines using a DPR do not require the use of ULSD, but the performance of the DPR will be enhanced by the use of ULSD.

Contractor and Product Information

Contractor Information	Type	Products
Clean Diesel Technologies, Inc. 300 Atlantic Street Stamford, CT 06901 Glen Reid 203-327-7050 (ph) 203-323-0461 (fax) greid@cdti.com	DOCs DPRs	Their products include Platinum Plus [®] fuel borne catalysts (FBC), which reduce engine-out emissions of particulate matter (PM), carbon monoxide (CO), and hydrocarbons (HCs) and aids in the regeneration of diesel particulate filters (DPF), the EPA Verified Platinum Plus Purifier which combines the emissions reduction performance of the FBC with those of a lightly catalyzed diesel oxidation catalyst (DOC) or a catalyzed wire mesh filter (CWMF), and the ARIS [®] 2000 urea injection system for selective catalytic reduction or NOx.
Cummins Northeast, Inc. 100 Allied Drive Dedham, MA 02026 Scott Lengel 781-329-1750; 781-329-4428 scot.l.lengel@cummins.com	DPFs DOCs DPRs	Cummins Northeast is awarded under Contract #VEH71 to supply DPFs, DOCs and DPRs. Cummins Northeast represents Cummins diesel, propane and CNG engines and fleetguard emission solutions and products. Cummins is also a representative for Johnson Matthey engine retrofit products designed to reduce vehicle emissions and particulate matter for improved air quality.
Patriot International Trucks, Ltd. 340 Mystic Avenue Medford, MA 02153 John Anderson 800-277-4777 781-395-8592 (fax) John@andersonmotors.com	DPFs DOCs	Patriot's technologies include diesel particulate filters and diesel oxidation catalysts for various types of buses, trucks and other equipment.

Recycled and Environmentally Preferable Products Guide to Massachusetts Statewide Contracts

Sample pricing for the various emission control technologies can be found at www.comm-pass.com, by searching under the contract number and looking at the bottom of each vendor page.

Diesel Fuels, Bio and Ultra Low Sulfur

Contract #: ENE23 **OSD Update #:** 06-38A
Expiration Date: 07/31/2008 (w/one 24-mo. option to renew)
Procurement Team Leader: James Ferri (617) 720-3168
OSD Environmental Contact: Marcia Deegler (617) 720-3356

Contract Summary: There are two environmentally preferable products offered under this contract:

- **Ultra Low Sulfur Diesel** – describes a new EPA standard for the sulfur content in on-road diesel fuel sold in the United States. The allowable sulfur content for ULSD (15 ppm) is much lower than the previous U.S. standard for Low Sulfur Diesel (LSD, 500 ppm), which reduces emissions of sulfur compounds (blamed for acid rain). ULSD can also be used with emission control retrofit devices that greatly reduce emissions of oxides of nitrogen and particulates that contribute to asthma and other respiratory illnesses.
- **Biodiesel** - is a renewable fuel made from agricultural resources, vegetable oils and/or animal fats; any of the above provides the same amount of energy. It reduces particulate matter and tailpipe emissions that impact climate change, such as CO₂ (although some increase in NO_x may occur depending on the duty cycle of the engine. It is nontoxic, biodegradable and suitable for sensitive environments, making potential spills of biodiesel far less harmful to the environment and much less expensive to clean up than regular diesel spill. **Biodiesel is available on State Contract ENE23 in blends of B20 (20% biodiesel, 80% ULSD when available) for spring and summer months and B5 (5% biodiesel, 95% ULSD) for late fall and winter months.**

Contractor and Product Information Ultra Low Sulfur Diesel (ULSD)

Contractor and Product Information Biodiesel

Contractor Information	Zones	Contact Person	Products
Dennis K. Burke PO Box 6069 Chelsea, MA 02150	1 - 4	Joe Cote (617) 884-7800 j.cote@burkeoil.com	Biodiesel in Blends of B5 and B20, depending on the season
Alliance Energy Services, Inc. 555 South Canal Street Holyoke, MA 01040	5 - 8	Steve Chase (413) 538-8000 schase@allianceenergy.com pany.com	Biodiesel in Blends of B5 and B20, depending on the season

How to Use the Contract: Sample pricing for the various fuels can be found at www.comm-pass.com, by searching under the contract number and looking at the bottom of each vendor page.

There is also a Fact Sheet on biodiesel accessible from the Comm-PASS site as well that provides more information about the product and answers frequently asked questions.

Electrical and Lighting Supplies and Equipment, Energy Efficient

Contract #: FAC22	OSD Update # 00-15C
Expiration Date:	07/16/07 (w/two 24-mo. options to renew)
Procurement Team Leader:	Joseph Lydick (617) 720-3139
OSD Environmental Contact : Marcia Deegler (617) 720 – 3356	

Contract Summary: This contract provides for a wide variety of lighting materials, including incandescent and fluorescent bulbs, and various ballasts, exit signs, as well as a variety of value added services.

Many of the products and services available on the contract (see table below) are associated with significant energy and cost savings:

- **Energy efficiency retrofits.** The contractors will perform a free energy audit and identify opportunities to convert to more efficient lighting equipment and would recommend energy saving practices. While retrofits come at an upfront cost, the resulting energy savings cover the upfront cost within a short period of time. The contractors are also able to obtain utility rebates that further reduce the cost of the retrofits.
- **Compact fluorescent light bulbs.** Compact fluorescents light bulbs (CFLs) can replace conventional incandescent light bulbs either with the installation of a new lighting fixture or without a fixture retrofit. The use of CFLs is associated with significant energy and labor reductions:
 - **CFLs consume 3 or 4 times less energy** than incandescents, cutting the lighting energy bill by just as much.
 - **CFLs also “live longer,”** about 10,000 hours each compared to the 1,000-hour lifespan of a traditional incandescent. This means 10 times less bulb replacement work and staff time freed up to do more productive things.

In FY 2004, Commonwealth Agencies and political subdivisions purchased over 45,000 compact fluorescent light bulbs (CFLs). Compared to incandescent light bulbs producing the same amount of light for the same amount of time, CFLs will save the departments that bought them nearly five million kilowatt-hours of electricity, which translates into nearly \$500,000 in energy savings.

Energy-Saving Products Available:

- Compact and straight fluorescent lamps
- Energy saving incandescent bulbs
- Energy Efficient Ballasts
- Energy Efficient EXIT signs & retrofit kits

Value-Added Services:

- Free energy audits
- Return on Investment analysis for energy efficient retrofit projects
- Lighting training sessions (contact contractors or OSD)
- Free troubleshooting & technical assistance

Environmental Management Consultant, Program Coordinator, and Planner Services

Contract #: PRF06	OSD Update # 03-24
Expiration Date:	02/27/2008 (w/three 24-mo. options to renew)
Procurement Team Leader:	Tess Francisco (617) 720-3135

This statewide contract offers professional services in seven specialty areas: the environment, finance, human resources, organizational development, education, health services, and program development. This contract is to be used for management consultant, program coordinator and planner services when specific statewide contracts do not already exist for the services to be rendered. Interested departments should visit www.comm-pass.com and search under Contract PRF06 then consult the "Forms & Terms" tab on to see details of work and rates offered by the various contractors.

Express Delivery Services

Contract #: OFF11	OSD Update# 01-32B
Expiration Date:	04/01/07
Procurement Team Leader:	Bob Guerard (617) 720-3321
OSD Environmental Contact:	Marcia Deegler (617) 720-3356

Contract Summary: This contract provides for Express, Next Day and Second Day Delivery Services through United Postal Service (UPS) at special rates for Commonwealth contract users.

Value-Added Feature: As an added value, UPS uses many products that contain recycled content and/or are reusable. To see a full list of their many corporate environmental initiatives, visit their website, at www.community.ups.com. Some of the examples include:

- UPS Letters (Next day and Second day) contain 100% total recycled content, 80% post-consumer content and are reusable.
- UPS boxes containing 100% total recycled content, 78% post-consumer content.

Fitness Equipment, Reconditioned

Contract #: OFF14	OSD Update: 03-02B
Expiration Date:	08/11/07
Procurement Team Leader:	Deborah Combra (617) 720-3305
OSD Environmental Contact:	Dmitriy Nikolayev (617) 720-3351

Contract Summary: This contract provides access to a wide variety of recreational, athletic and physical fitness equipment, supplies and services. Reconditioned fitness equipment is covered by contract category #4 and presents an opportunity to achieve significant savings while obtaining high quality equipment. All equipment supplied in this category will be furnished in "like-new" condition and will be warranted to free of defects and meet accepted standards and specifications. The contractor has been certified to perform equipment remanufacturing/refurbishing by the original equipment manufacturers (Cybex and Bodyguard).

Contractor Information

Contractor	Contact	Phone / Email	Address	Products
Precision Fitness Equipment	David Aykanian	Phone: 508-655-0288 daykanian@pfe-inc.com	217 West Central St. Natick, MA 01760	Reconditioned treadmills, bikes, climbers

How to Use this Contract: Call the contractor for product availability and pricing.

Fertilizers, Organic and Other Environmentally Preferable Landscaping Applications

Contract #: FAC24	OSD Update # 06-24
Expiration Date:	04/17/2007 (w/two 12-mo. options to renew)
Procurement Team Leader:	Joe Lydick (617) 720-3139
OSD Environmental Contact:	Marcia Deegler (617) 720-3356

Contract Summary: The actual contract title is Outdoor/Landscaping Application Products Including Environmentally Preferable Products and it includes a host of landscaping products, such as golf course applications, soil amendments, organic fertilizers, organic weed control and pesticides, erosion control products, plastic timbers, rubber mulch, nursery products and more.

EPP fertilizers include Liquid Organic Fertilizers, Organic Plant Stimulants, and Organic Soil Amendments that are recognized as effective means of addressing agricultural needs while minimizing some environmental effects associated with traditional chemical products. These materials are “certified” as organic by nationally recognized certifying bodies such as the Organic Materials Review Institute (OMRI) and/or National Organic Program (NOP). They can be applied with no impact to human health and will not compromise local water supplies.

The organic fertilizers enhance plant growth and rebuild soil quality to improve deeper rooting and penetration of water and nutrients. Improved plant health also results in increased resistance to pests. The vendors for these products will meet with your facility individually to provide an overview of the products and process and assist with the implementation of the products. **Visit the vendor websites for full product details.**

Table 1 – Vendors - Dedicated to Only Organic Products

Vendor / Contact	Address	Phone / Email / Website	EPPs
Advanced Marine Technologies Ira Perry	33 Cape Street New Bedford, MA 02740	508-991-5225 ira@organicgem.org www.organicgem.org/	Organic Gem, is an all-natural organic fertilizer that also functions as a bio-stimulant/soil enhancer. Made from an aquatic renewable raw material (fish) that is both fresh and free from heavy metals. Using a unique enzymatic cold process that produces a hyper-active bio-stimulant it facilitates plant growth, rebuilds soil, and offers higher production yields.
Cockadoodle DOO / Pure Barnyard Inc. Maria Shute	199 Constitution Ave Portsmouth, NH 03801	603-373-6955 maria@purebarnyard.com www.purebarnyard.com/cockadoodledoo/	Cockadoodle DOO's natural / organic lawn and garden fertilizers continuously feed your lawn/grounds for 90 days. It is a dehydrated, weed-free granulated formula that contains 3% calcium to help heal freshly mowed grass and prevent browning. The organic weed control products, made from corn gluten are ideal for golf courses, schools, commercial applications and consumer use.

Foodservice Supplies / Grocery Related Paper Products

Contract #: GRO20	OSD Update # Pending
Expiration Date:	09/30/2007 (w/two 12-mo. options to renew)
Procurement Team Leader:	Betty Fernandez (617) 720-3133
OSD Environmental Contact:	Marcia Deegler (617) 720-3356

Contract Summary: This contract provides Grocery Related Items/Foodservice Supplies such as cups, napkins, plates, straws, trays, toilet paper, paper towels, forks, spoons, knives and other foodservice supplies in two categories:

Category I – Conventional Products – While this category contains some conventional items that do not necessarily have any environmental benefits, the two awarded vendors are required to use shipping containers that contain post-consumer recycled content and recycle various materials in their operations. In addition, they both supply janitorial and foodservice paper goods that meet the federal and state recycled content standards for recycled content as follows:

- | | | | |
|------------------|---------------------------|--------------------|---------------------------|
| • Paper Toweling | 40% post consumer content | • Napkins | 30% post consumer content |
| • Toilet paper | 20% post consumer content | • Industrial wipes | 40% post consumer content |
| • Facial Tissue | 10% post consumer content | • Trash liners | 20% post-consumer content |

Category II – Biodegradable/Compostable Products including Biobased –offers contract users an environmentally preferable and sustainable alternative to conventional disposable foodservice ware. Biodegradable products may be made from fibers, resins or other materials that can document their capability to be satisfactorily composted in most municipal and/or industrial composting facilities. They include a variety of hot and cold cups, trays, utensils, clamshell containers and trash liners. Many of these products are certified by the Biodegradable Products Institute (BPI) and all are required to comply with the following specifications:

- 100% biodegradable and made from renewable resources
- Compatible for composting in typical cafeteria food waste programs without detracting from the quality of the finished compost produced through such programs
- Comply with ASTM D6400-99 “Specifications for Compostable Plastics” (for products that contain or consist of compostable plastics).
- Comply with ASTM D6868 “Specifications for Biodegradable Plastic Coatings on Paper and Other Compostable Substrates” (for compostable products with biodegradable plastic coatings).

Product Categories and Contractors

Visit www.comm-pass.com and use contract search for GRO20. The OSD Update with products and pricing is available under the forms and terms tab.

Glass Beads, Recycled

Contract #: VEH69
Expiration Date: 03/31/07
Procurement Team Leader: Ron Whitaker (617) 720-3112
OSD Environmental Contact: Marcia Deegler (617) 720-3356

Contract Summary: This contract is a multi-state award (MA, ME, NH, and VT) coordinated by the state

of New Hampshire. These beads are made from 100% pre-consumer recycled glass and are to be used in roadway painting operations to improve the night visibility of the paint. Potters Industries is offering one type of bead in a standard size. See below for a description and pricing.

Contractor and Product Information

Contractor Name	Contact	Specifications and Price
Potters Industries, Inc. PO Box 8500-S-7815 Philadelphia, PA 19178 www.pottersbeads.com	Beth Miskewicz Phone: 610-651-4700 Fax: 610-408-9723 beth.miskewicz@pottersbeads.com	<ul style="list-style-type: none"> resistant to traffic wear and effects of weathering spherical in shape, 80% true spheres as per ASTM Test D-1155 silica content shall be not less than 60% refraction index ranges 1.50 to 1.60

How to Use this Contract: To order from this contract or to receive additional information on bead specifications, please contact the contractor. This summary is also provided in the OSD Update available on www.Comm-PASS.com.

Hospital Supplies, Remanufactured or Used

Contract #: HSP18 **OSD Update #** 01-42E
Expiration Date: 06/28/07
Procurement Team Leader: Tom Lull (617) 720-3307

Contract Summary: This contract offers a broad range of hospital equipment from numerous contractors. Please note that not all equipment is available from nor inventoried by every contractor identified below. Within the list of items awarded to each contractor remanufactured and/or used equipment is offered - sometimes upon request and otherwise on an "as available" basis only. Depending on equipment and manufacturers these items often carry a different warranty then if purchased new.

Equipment available as remanufactured and/or used (specific product availability depends on contractor):

- | | |
|--|--|
| <ul style="list-style-type: none"> Lifts and Transfer devices Bathing systems, Rehab equipment Alarm Systems/Accessories Stretchers, Wheelchairs | <ul style="list-style-type: none"> Beds: Medical/Surgery/Specialty Durable Medical Equipment Specialty Equipment, Furnishings Overweight Patient Equipment |
|--|--|

Additional environmental services available (specific service availability depends on contractor):

- | | |
|--|--|
| <ul style="list-style-type: none"> Batteries exchanged/recycled | <ul style="list-style-type: none"> Mercury Reduction Programs |
|--|--|

Product Pricing: Cost savings on remanufactured and used equipment can range from 10%-50% depending on equipment and vendor. Additional environmental services help reduce amounts and costs of hazardous materials stored and disposed of.

How to Use this Contract: Visit www.comm-pass.com and search under Contract #HSP18 for full details on products and pricing. Contact your vendor of choice above to obtain a catalog of products and pricing.

Industrial/Commercial Supplies

Contract #: FAC28	OSD Update # 03-21
Expiration Date:	02/10/07 (w/three 24-mo. options to renew)
Procurement Team Leader:	Joseph Lydick (617) 720-3307
OSD Environmental Contact:	Marcia Deegler (617) 720-3356

Contract Summary: This contract offers hundreds of products in eleven categories through industrial supply houses and/or stores. Many environmentally preferable products are available, such as recycled content waste oil containers, absorbents, drums and funnels, as well as energy efficient motors, exit signs, timers, water saving devices, rechargeable batteries and more. The contractors also offer cost-free battery recycling programs and alternatives to products containing mercury wherever they are available. In addition, the contractors offer tracking and reporting of EPP purchases. Contact the suppliers for details.

Award and Pricing Information

- Three statewide and eight regional highly reliable contractors now awarded
- Prices are based on a range of discounts off the lowest available price.
- Products are available through catalogs, phone orders, or store locations.
- Awarded regions are designated as follows: #1-Pittsfield, #2 -Springfield, #3 - Worcester, #4 - Boston, and #5 - New Bedford.

Contractor Information

How to Use this Contract: To order from this contract or to receive additional information on products and pricing, call the contractors to receive their product catalog. Orders can then be placed directly with the contractor of choice. Reference the State Contract #FAC28 to receive the Commonwealth's discount pricing.

IT Hardware: Desktops, Laptops, Mobile Computing, Storage and Servers

Contract #:	ITC16
Expiration Date:	06/30/08 (w/three 12-mo. options to renew)
Contract Manager:	Gloria Harris (617) 720-3106
OSD Environmental Contact:	Dmitriy Nikolayev (617) 720-3351

Contract Summary: This contract covers a broad range of computer equipment and related services in the following categories:

- Category 1 – Project Management/Integration
Public Schools and Libraries Only
- Category 2 – Desktops, Laptops, Tablets
- Category 3 – Other Mobile Computing
- Category 4 – Storage Technology
- Category 5 – Servers
- Category 6 – Maintenance, Integration and Incidental Hardware
- Category 7 – Non-Wintel (Apple) Computers- Desktops and laptops

The environmental specifications for this contract were based on the *Principles for Purchasing Environmentally Preferable Computers, Monitors, and Peripherals* developed in collaboration with over 50 government agencies and institutions nationwide. The principles covered several general areas:

- **Design for the environment and human health:** elimination or reduction of harmful constituents, use of recycled and bio-based materials, design for recyclability and upgradeability, etc.
- **Energy efficiency and user health:** Energy Star compliance, minimized health risks for the users.
- **Safe and environmentally sound end-of-life (EOL) management:** availability of take-back and management services with emphasis on reuse, recycling and safe materials management.
- **Manufacturer responsibility:** compliance with environmental regulations and pollution prevention techniques, Eco-labels and third party certifications, disclosure of the use of toxic materials.

This contract, just as the previous one, requires that all equipment covered by Energy Star be shipped with the **power management features enabled**. All contractor technical support, maintenance, and integration personnel are also required to ensure Energy Star functionality is on and functional. Please ensure that your MIS department utilizes these features throughout your office.

* More contractors were awarded in categories 1, 4, 5 and 6. Please check Comm-PASS for information on all the contractors in those categories.

Motor Oil, Re-Refined, Antifreeze and Other Lubricants

Contract #: VEH67	OSD Update 07-13
Expiration Date:	06/30/07 (w/one 12-mo. options to renew)
Procurement Team Leader:	Ron Whitaker (617) 720-3112
OSD Environmental Contacts:	Marcia Deegler (617) 720-3356

Contract Summary: Products available on this new contract include motor oil, various weights; marine/specialty oils; hydraulic oil; gear oil; transmission & brake fluids. Additionally, users may select **bio-based lubricants** (which are considered biodegradable and derived from non-petroleum sources) in the following categories: hydraulic oils, marine/specialty oils, greases and gear oils, and brake fluids.

Product Specifications

- All re-refined motor oils included in this contract are licensed by the American Petroleum Institute Engine Oil Licensing and Certification System (API-EOLCS) and meet the performance specifications of the major auto and equipment manufacturers. As a result, **these products will absolutely not void warranties**. Motor oils are available in quarts/cases, 5 gallons containers, 55-gallon drums and bulk quantities.
- All other oils and lubricants (including the bio-based) on the contract are certified to meet the appropriate ASTM standards and manufacturers specifications and are available in various quantities.
- Contractors will be required to **take back empty drums at no additional cost** to customers.
- Contractors offer a 300-gallon storage tank for motor oil products for contract users.

Some issues to consider when purchasing office furniture

Many of the vendors awarded under OFF20 for remanufactured and other office furnishings incorporate the following sustainable principles and practices into their design and manufacturing processes. You are encouraged to support their sustainable efforts wherever possible.

PLEASE GIVE PREFERENCE TO THESE ...

Powder Coating – Powder coating is a “dry paint” application process in which finely ground particles of pigment and resin are electrostatically charged and sprayed onto a surface, which is then cured to set the coating. It reduces VOCs in the application process leading to improved indoor air quality.

LEED (Leadership in Energy and Environmental Design) Green Building Rating System® is a voluntary, consensus-based national standard for developing high-performance, sustainable buildings. LEED for Commercial Interiors (LEED-CI) addresses the specifics of tenant spaces primarily in office, retail and institutional buildings. It is the recognized standard for certifying high-performance green interiors that are healthy, productive places to work, are less costly to operate and maintain, and represent a reduced environmental footprint. For details visit the US Green Building Council website at <http://www.usgbc.org/>.

Cradle-to-Cradle (C2C) Protocol (www.aia.org) – as designed by William McDonough and Michael Braungart reflects a strategy for developing ecologically intelligent products that generate economic, social and environmental benefits at every phase of their use, including, but not limited to:

- Material Chemistry and Safety: What chemicals are in the materials specified for the product; are they the safest possible?
- Disassembly: Can the manufacturer easily take products apart at the end of their usual life to recycle the materials?
- Recyclability: Do the materials contain recycled content and/or can they be recycled?

Certifications – such as Greengard, Green Seal, ISO 14001, Forest Stewardship Council (FSC) and others that represent sustainable programs.

Office Supplies

Contract #: OFF19	OSD Update #: 06-07
Expiration Date:	07/31/08
Procurement Team Leader:	Bob Guerard (617) 720-3321
OSD Environmental Contact:	Marcia Deegler (617) 720-3356

Contract Summary: This contract provides Commonwealth buyers with an extensive office supply catalog that contain hundreds of items made with recycled content, including but not limited to, those indicated below and much more. All recycled products are:

- ✓ clearly indicated in each of the catalogs with an environmental symbol
- ✓ available at discounts due to the volume that is purchased under this contract overall
- ✓ automatically tracked by each contractor, who will also provide a record of purchases to individual customers upon request.

RECYCLED CALENDARS!!
Specials on dated goods for the upcoming year are offered by both suppliers. Call vendors for details as they are offered in a separate promotional flyer and not shown in the catalogs.

Contractor Information:

<p>New England Office Supply 135 Lundquist Drive Braintree, MA 02184</p> <p>W/MBE</p> <p>Online Ordering at www.neosusa.com</p>	<p>Patricia Vacca Phone: (800) 345-7080 x228 or (781) 794-8800 x228 Fax: (888) 636-7329 patv@neosusa.com</p>	<ul style="list-style-type: none"> • file folders, hanging file folders • notepads, notebooks, binders • pencils, binders, desk pads • tablets, message pads • transparencies • fax notes and post-its • trash bins, recycling receptacles, cardboard recycling boxes • plastic desktop accessories • remanufactured computer diskettes (Green Discs) and disk mailers • plastic bubble wrap • index cards - colored and plain • plastic and paper report covers • art and construction papers • ergonomic desk accessories (mouse and wrist pads, back support cushion) made with 50% recycled foam and 89% post-consumer recycled Polartec™ fleece

Product Pricing: Each catalog indicates the special discount pricing available for Commonwealth contract users. Call the contractor above for any questions.

How to Use this Contract: *More Ordering Options Available!*

Paper Catalog	<p>#1 Call the contractor to receive a free catalog that offers hundreds of recycled products and other office supplies at special discount Commonwealth prices.</p> <p>#2 Look for the recycled/ "green" symbol when choosing your items for purchase and the "special discount prices" that apply to the contract (these are displayed differently in each of the catalogs).</p> <p>#3 Place your order by phone or by fax.</p>
Online Ordering	Contact the contractor to set up your account and then use their website, customized for public purchasing, to order supplies. All recycled-content products are identified with a special logo.

Before using the website, all contract users must set up an account with the contractor. Detailed information on account setup, website use and staff training is available in the OSD Update at www.comm-pass.com.

Paper and Envelopes, Recycled

Contract #: OFF19 **OSD Update #**06-07
Expiration Date: **07/31/08**
Procurement Team Leader: **Bob Guerard (617) 720-3321**
OSD Environmental Contact: **Marcia Deegler (617) 720-3356**

Contract Summary: Commonwealth of Massachusetts state agencies have been purchasing **ONLY recycled paper since 1994**. This comprehensive agreement currently contains five office paper product categories as shown in the table below. All products under this contract contain a minimum of 30% post-consumer recycled content in line with both state and the federal government established guidelines. These paper products also meet the specifications for brightness and archival quality equivalent to their virgin counterparts.

Contractor Information

Contractors	Contacts	Recycled Products Offered
Lindenmeyr Munroe	Timothy Goldberg Phone: 800-237-2737 x351 or 978-276-2300 Fax: 800-409-1506 Tgoldberg@lindenmeyr.com	Category #1: Copier, laser, rag bond, carbonless forms, offset paper/ cut stock Category #2: Flat Stock, offset paper, rag bond, various offset papers, label stock, tree-free Category #3: Rolled stock Category #4: Computer paper, continuous forms, carbonless sets
Xpedx / International Paper	Richard Glennon Phone: 800-686-7447 x 8604 or 978-988-8604 Fax: 978-988-8595 rich.glennon@xpedx.com	Category #1: Copier, laser, rag bond, carbonless forms, offset paper/ cut stock Category #2: Flat Stock, offset paper, rag bond, various offset papers, label stock, tree-free Category #4: Computer paper, continuous forms, carbonless sets
Bay State Envelope	Mandi Razukiewicz Phone: 508-337-8900 x127 Fax: 508-337-8990 mrazukiewicz@baystateenvelope.com	Category #5: Envelopes, White and Kraft and Tyvek
Worcester Envelope	Rachel Blum Phone: 774-272-3015 Fax: 508-832-6879 rblum@worcesterenvelope.com	Category #5: Envelopes, White and Kraft and Tyvek

Product Information: There are **over two dozen types of office papers** offered on this contract from both Lindenmeyr Munroe and xpedx. It is suggested that customers purchase in the largest quantity possible, as costs are discounted as the number of cases ordered increases.

The **multiple brands of copy paper** now available on this contract include the following:

- Great White • Domtar Recycled Copy and Color • Hammermill Fore MP • Springhill Opaque Colors
- Springhill Offset • Wausau Multipurpose and Offset • Cascades New Life and Rockland
- Cascades PC100 • Husky Recycled Copy / Weyerhaeuser • Lynx Opaque Recycled / Weyerhaeuser

All papers on contract meet or exceed both the federal and state standards for recycled content. **All** are acid-free / archival quality and meet the same ANSI / NISO standards as virgin paper.

Product Pricing: Contract Pricing is updated semi-annually in November and May. Current pricing is available in the OSD Update.

How to Use This Contract: Buyers may directly call the vendors listed above to order or receive pricing quotes. The OSD Update indicated above also provides a full list of products and pricing from each of the awarded vendors at www.comm-pass.com.

Photocopiers, Printers, Facsimile and Multifunctional Equipment

Contract #: OFF16	OSD Update # 06-06
Expiration Date:	11/30/09 (w/three 12-mo. options to renew)
Procurement Team Leader:	Bob Guerard (617) 720-3321
OSD Environmental Contact:	Marcia Deegler (617) 720-3356

Contract Summary

This contract offers a wide variety of equipment in the following categories:

Category	Description
Category 1	Photocopiers <ul style="list-style-type: none"> • 1A – Authorized Remanufactured Analog Black & White Photocopiers • 1B – Authorized New Digital Multifunctional Black & White Photocopiers • 1C – Authorized New Digital Multifunctional Color Photocopiers • 1D – Authorized New Digital Multifunctional Black & White/Color Photocopiers • 1E – Authorized New Digital Multifunctional Black & White 110+copies per minute Production Photocopiers
Category 2	Laser and Wide Format Printers <ul style="list-style-type: none"> • 2A – Authorized New Laser and/or LED Black & White Printers • 2B – Authorized New Laser and/or LED Color Printers • 2C – Authorized New Black & White Wide Format Engineering Printers • 2D – Authorized New Color Wide Format Engineering Printers
Category 3	Facsimile Equipment <ul style="list-style-type: none"> • 3A – Authorized New Class III Low Volume Facsimile Equipment • 3B – Authorized New Class III Medium Volume Facsimile Equipment • 3C – Authorized New Class III High Volume Facsimile Equipment • 3D – Authorized New Platen-Based Facsimile Equipment
Category 4	Supplies and Maintenance (see “Toner Cartridges, Remanufactured”)

Environmental Features and Recommended Practices

Equipment available on this contract has a variety of environmental attributes that are not only beneficial for the environment, but are also associated with measurable cost savings. While these features may come standard with the equipment, they will not provide any benefits unless they are enabled, used and maintained:

- **Networking capabilities.** The vast majority of copying equipment available on the contract can be connected to the computer network and serve as a printer.
Recommended practice: Review the volume of printing performed by smaller individual printers and determine where smaller printers can be replaced by a networked copier. Prints produced by networked copiers are less expensive, additional supply and maintenance savings may be achieved.
- **Energy saving features.** All equipment available on the contract comes with energy saving features enabled. The vast majority of the models are Energy Star compliant (exception: select color copiers).
Recommended practice: Ensure that the energy saving features are properly installed and remain enabled as the equipment is used. These features are capable of saving about \$130 per large copier, \$40 per printer and \$15 per fax machine in energy costs while contributing to the state’s climate protection goals.
- **Double-sided copying and printing (aka “duplexing”) capabilities.** All copiers with speeds over 15 copies per minute, and printers and fax machines with speeds of over 21 and 6 prints per minute respectively have duplexing features.
Recommended practice: Set duplexing as the default mode for all equipment where those features are available. Notify staff about the change and educate them about making single-sided copies and prints when necessary. This practice typically results in savings of at least 10-20% on office paper even compared to offices where double-sided copying is available but is not set as a default.

Recycled and Environmentally Preferable Products Guide to Massachusetts Statewide Contracts

- **Additional multifunctional capabilities.** Most of the equipment available on the contract can perform more than just one office function. Some of those include: scanning to email, scanning to computer memory. *Recommended practice: Review the additional capabilities of the equipment and utilize them to reduce paper usage and make document storage and retrieval easier.*

Remanufactured Equipment and Supplies

Remanufactured copiers are available under this contract in Category 1A. Remanufactured copiers undergo extensive refurbishing after a period of use before they are offered for resale or rental. With remanufactured equipment, the features, functions and model number remain the same. Under the terms of the contract, remanufactured equipment is held to the same performance standards as new.

How to Use This Contract: Contact the vendors for equipment availability information or see the lists of available equipment by viewing the contractor information under the “Vendor(s)” tab for OFF16 on Comm-PASS.

Plastic Lumber, Recycled

Contract # FAC20	OSD Update #00-30B
Expiration Date:	05/19/08
Procurement Team Leader:	Dmitriy Nikolayev (617) 720-3651
OSD Environmental Contact:	Marcia Deegler (617) 720-3356

Contract Summary: OSD is pleased to announce the awarding of this multi-year contract for Plastic Lumber, Recycled, and Other Recycled Plastic Products, covering the following eight categories:

Category	Description
Category 1	Outdoor Benches and Tables (including metal-frame furniture and all plastic lumber furniture)
Category 2	Dimensional Lumber (used for constructing decks, fences, wetlands walkways, etc.)
Category 3	Site Amenities (trash cans, stands, landscaping timbers, decorative planters, etc)
Category 4	Playground Equipment (swings, bridges, slides, etc.)
Category 5	Traffic Control Products (speed bumps, parking stops)
Category 6	Fencing
Category 7	Signs
Category 8	Partitions (bathroom)

Product Benefits: Plastic lumber products are:

- Non-porous and thus will not splinter, peel, rot, crack, split or degrade
- Impervious to wood destroying organisms
- Virtually maintenance free
- Long lasting (50 years plus, depending on the application)
- Waterproof
- Graffiti and stain resistant and easy to clean
- Resistant to cold, salt and most corrosive substances.
- Require no painting or sealing and are available in many colors
- Lasts 15-20 years in underwater marine applications and well over 50 years in construction applications such as decks.
- Contains no hazardous chemicals and cannot leak or contaminate soil.

Although the up-front cost is generally higher than wood, the above mentioned qualities make it the material of choice for exterior applications where weather resistance and low maintenance cost are required. Products contain a range of recycled content including post-industrial (signs and partitions) and up to 100% post-consumer (benches, tables, lumber, site amenities).

In FY2001, the Metropolitan District Commission (MDC) launched a project in conjunction with the Massachusetts Executive Office of Environmental Affairs Charles River Watershed Team to help restore non-functional fish ladders on the Lower Charles River. These fish ladders will help restore fish migration routes and maintain a healthy ecosystem.

Plastic lumber, which has a lifetime use of 15-20 years in underwater marine applications and releases no toxins, was used in the construction of the fish baffles. As a result of their initiative, MDC has been presented with the award for Most Innovative Program.

How to Use this Contract: To order from this contract, please contact the appropriate Contractor(s) and request product catalogs and quotes. We suggest calling several vendors to take advantage of the wide variety of products and styles available.

Power Controllers for Vending / Snack Machines, Monitors and Laser Printers

Contract #: New multi-state contract award pending – due late 2006.
Procurement Team Leader: Dmitriy Nikolayev (617) 720-3351
OSD Environmental Contact: Marcia Deegler (617) 720-3356

Contract Summary: This multi-state contract was issued by the State of Connecticut for the purchase of energy saving power controllers for vending and snack machines, computer monitors, and laser printers.

The cold drink vending machines in your building run 24/7 even on nights and weekends when the staff are not around. Some of these machines use as much as 900 watts and costs the Commonwealth of Massachusetts as much as \$351 per machine per year or \$351,849 per 1,000 machines per year.

The VendingMiser is a smart controller that goes on the cold drink vending machine in your building and reduces the electrical energy costs by 30% - 50%. The VendingMiser will typically pay for itself in 12.9 months and that is without the electric utility rebate. That is a savings of about \$222,632 per year for 1,000 VendingMisers or \$222 for each individual VendinMiser. Most electric utilities provide a \$75 financial incentive per VendingMiser. The VendingMiser has the blessing of Coke and Pepsi since the drinks stay cold and meet the specifications of Coke and Pepsi and all cold drink suppliers.

For details on unit pricing, quantity discounts and technical information on the devices, interested buyers should contact the awarded contractor below, or look for a comprehensive summary of the contract at www.comm-pass.com.

Contractor Information:

Conservation Solutions

Dan Cook
162 Great Road

Phone: 888-266-1945, 978-266-1900
Fax: 978-266-1976
Email: dcook@conservationsolutions.com

* Conservation Solutions is also an awarded contractor on FAC17 for environmentally preferable water treatment technologies.

Printing, Photocopying & Mailing Services

Contract #: OFF15 **OSD Update #**03-25
Expiration: **4/6/08 (w/five 12-mo. options to renew)**
Procurement Team Leader: **Robert Guerard (617) 720-3321**
OSD Environmental Contact: **Marcia Deegler (617) 720-3356**

Contract Summary: This contract provides customers with a pre-qualified lists of contractors in the following three categories:

- **Category A. Printing Services (Group 1- Copy Centers, Group 2 - Commercial Printers)**
- **Category B. Mail Services Providers**

Category A. Printing Services.

The following information applies to both copy shops and commercial printers:

- All contractors must use **recycled paper with a minimum 30% post-consumer content**. For coated stocks used for color offset printing this requirement is 10%.
- The **recycled logo and/or the words “Printed on Recycled Paper”** will be automatically included on all printed materials.
- Printing on **100% post-consumer recycled, chlorine free or “tree-free” paper** in various textures and colors may also be available from some of the contractors. Please contact the vendors for availability and pricing.

Since some of the contractors service specific parts of the state, regional awards were made in addition to statewide (see Contractor Information table). The regions were designated as follows:

#	Region Name	Counties
1	West	Berkshire, Franklin, Hampshire, and Hampden
2	Central	Worcester
3	Northeast	Middlesex, Essex

#	Region Name	Counties
4	Boston	Norfolk, Suffolk Counties
5	Southeast	Plymouh, Bristol, Barnstable
6	Cape Islands	Dukes, Nantucket

Group 2. Commercial Printers – Contractor Information

Offset printing services (performed by contractors in Group 2) are associated with a number of significant of environmental and public health impacts throughout the life-cycle of a printed document. Many of such impacts are related to the use of chemicals that may be toxic in the printing process. In collaboration with the Office of Technical Assistance (Executive Office of Environmental Affairs) and the Environmental Results Program (Department of Environmental Protection), OSD developed a set of environmental guidelines for printers. All contractors are encouraged to implement environmental stewardship initiatives that exceed the requirements of the current environmental regulations.

The environmental stewardship initiatives include:

- Equipment and technologies preventing waste and reducing pollution (e.g. digital pre-press systems, solvent recovery systems, etc.);
- Recycling paper, cardboard, used pallets and waste inks;
- Environmentally preferable chemicals for printing (formaldehyde-free photochemicals, vegetable-based or water-based inks, low-VOC adhesives, etc.)

To measure to what extent the contractors have implemented the environmental initiatives, each contractor was awarded an environmental score (see Contractor Information table for Group 2). The maximum possible environmental stewardship score for a commercial printer is 25. **To reward companies that implemented such environmental stewardship initiatives, please give your preference to printers with higher environmental scores.**

Category B. Mail Service Providers

Contractors in this category provide automated customized mailing of printed materials to recipients specified by contract users. In addition to direct mail services, the contractors may offer mail pick-up and pre-sorting services, which allow contract users to save on postal expenses. All contractors in this category are required to either return any leftover materials to the contract user or recycle them. Recycled programs for both paper and corrugated cardboard are required. In addition to that, all contractors have agreed to work with OSD to implement various additional environmental initiatives.

It is important to note that **avoiding mailing a paper copy of a document will provide more significant savings for the contract user as well as for the environment.** Electronic means of information dissemination through email and the Internet should be explored whenever possible. Often such means of outreach result in the reduction in labor and printing costs in addition to mail expenses, since they eliminate the need to design and print direct mail pieces.

Recycling Containers and Compost Bins

Contract #:	FAC31
Contract Title:	Recycling Containers and Compost Bins
Expiration Date:	09/30/09
Procurement Team Leader:	Winifred Prendergast, DEP (617) 292-5596
OSD Environmental Contact:	Dmitriy Nikolayev (617) 720-3351

Contract Summary:

The Department of Environmental Protection awarded and manages the statewide contract for a wide variety of containers for various recycling applications. Container types include: recycling bins, wheeled carts, home composting bins and buckets, public space recycling containers and rain barrels and others.

Contractor Information and Product Descriptions

Additional awards will be made for wheeled carts, recycling containers for public spaces and solar-powered trash compactors. Please visit www.comm-pass.com for information on those awards.

Tires, Retread

Contract #: VEH21	OSD Update #: 00-19
Expiration Date:	01/31/07
Procurement Team Leader:	Ron Whitaker (617) 720-3112
OSD Contact:	Marcia Deegler (617) 720-3356

Contract Summary: The title of the contract is Tires and Tubes, New and Retread. Retread tires cost on average 30-50% less than comparable new tires. Since 75% of the materials used to manufacture a tire remain in the casing, retreading saves natural resources and energy. It also diverts millions of scrap tires from landfills annually and cuts tire disposal costs for those who take advantage of the service. Contractors also provide a wide range of related services ranging from tire mounting, dismounting and balance to tire maintenance training and comprehensive tire management programs.

Contractor Information

Toilets, Composting and Portable

Contract #: FAC39	OSD Update # 07-11
Expiration Date:	06/06/07 (w/two 24-mo. options to renew)
OSD Environmental Contact:	Marcia Deegler (617) 720 - 3356
OSD Procurement Team Leader:	Joseph Lydick (617) 720-3139

Contract Summary: The title of this contract is Toilets, Portable and Composting and Related Services. This alternative offers a virtually waterless system which provides convenient, odorless, sanitation without polluting groundwater or nearby water bodies. Composting toilets can be used at special events, park and beach areas and other applications where portable and/or temporary units may be required.

Composting toilets eliminate the use of water for flushing and allow wastes to be converted into odor-free, nutrient-rich compost which can be used as a non-food plant fertilizer. The units often use solar panels to power the facility's electrical system and a mechanism for collecting rainwater to be used in facilitating the composting process. The units may be stand-alone or self-contained in specially designed housing. Also to be included as part of the composting toilet "package" is the complete system including starter bed material for the tank and the inoculate, as well as all of the components, hardware and instructions necessary for assembling, installing and operating the system.

Three contractors have been awarded each offering a different technology to process the compost. Buyers should understand that a particular application and/or location may determine the preferred technology.

Toner Cartridges, Remanufactured

Contract #: OFF16	OSD Update # 06-06
Expiration Date:	11/30/09
Procurement Team Leader:	Bob Guerard (617) 720-3321
OSD Environmental Contact:	Marcia Deegler (617) 720-3356

Contract Summary: Remanufactured (and other) supplies for printers and facsimile equipment are available as a category on statewide contract OFF16:

Category	Description
Category 4*	Supplies and Maintenance <ul style="list-style-type: none"> • 4A - Authorized OEM, Generic and/or Remanufactured Category 1 Supplies • 4B - Authorized OEM, Generic and/or Remanufactured Category 2 Supplies • 4C - Authorized OEM, Generic and/or Remanufactured Category 3 Supplies

***Subcategories 4D, E, F** - Authorized New Maintenance and/or Predecessor Maintenance photocopiers, printers and facsimile equipment respectively. See www.Comm-PASS.com for additional information.

Remanufactured supplies available under this contract comply with stringent remanufacturing process and product quality specifications. Customers can be assured that equipment warranties, including HP, will not be voided using remanufactured brands. The products carry satisfaction guarantees. Contractors are also responsible for making any necessary repairs and/or replacements for any printers or parts damaged by a faulty cartridge.

Remanufactured cartridges represent significant (30-60%) cost savings over competing OEM products. Through the reuse of the empty plastic casings, remanufactured toner cartridges reduce the amount of waste going to landfills and incinerators as well as the need for manufacturing new plastics. Under the terms of the contract, Contractors will take back all used cartridges for recycling.

Contractor Information: This table shows only the availability of remanufactured supplies. For information on other supplies available from these and other contractors, see the Comm-PASS Vendor pages for the contract.

Trash Bags, Plastic, Imprinted, Recycled

Contract #:	FAC43
Expiration Date:	11/10/06 (w/two 12-mo. options to renew)
DEP Contacts:	Winifred Prendergast, DEP (617) 292-5596

Contract Summary: This contract provides plastic trash bags in four sizes (10-14 gallons and 30-33 gallons) with customized printing options. All bags contain a minimum of 20% post-consumer recycled content and are available in a range of colors. Commonwealth cities and towns that operate user-fee (Pay-As-You-Throw) programs may purchase from this contract.

Vehicles, CNG and Bi-fuel

Contract #:	VEH73	OSD Update #06-27
Expiration Date:		4/30/2007
Procurement Team Leader:	Ron Whitaker (617) 720-3112	
Environmental Contact:	Marcia Deegler (617) 720-3356	

Contract Summary: The new statewide contract will include compressed natural gas (CNG) and bi-fuel vehicles as well as conventional passenger and light duty trucks. The vehicles are required to meet ultra-low emission standards (ULEV) or better.

A bi-fuel vehicle has two separate fuel systems, one for gasoline or diesel and another for either liquefied propane gas (LPG) or compressed natural gas (CNG). Because CNG and LPG stored in pressurized tanks, they cannot be simply pumped into the gasoline tank. The bi-fuel design allows the use of an alternative fuel when available.

Where low cost CNG or LPG is available, however, bi-fuel vehicles can offer a cleaner, more economical alternative to gasoline or diesel. CNG is one of the cleanest of the fossil fuels. Compared to gasoline, its use could bring about a significant reduction in tailpipe emissions of carbon monoxide (about 70%), nitrogen oxides (about 50%), and ozone-causing pollutants (about 90%). In addition, particulate emissions would be almost eliminated. In tests conducted in California, propane-powered vehicles produced about 45% less carbon monoxide than did gasoline vehicles and about 20% less nitrogen oxides; they also had about 60% less smog forming pollution. (See www.fueleconomy.gov for more details).

Contractor Information

Contractor / Contact	Phone / Email	Type of Vehicle	Pricing
Liberty Chevrolet 90 Bay State Road Wakefield, MA 01880	Kevin Nugent 781-246-1919 libertychev@nedda.com	8 PASSENGER VAN - Dedicated CNG	\$45,057
		CUBE VAN/BOX TRUCK - Dedicated CNG	\$51,001
Mirak Chevrolet 1125 Massachusetts Ave. Arlington, MA 02476	Jessica Mirak 781-641-6834 Jamirak@mirak.com	12 Passenger Van - Dedicated CNG	\$37,241
		12 Passenger Van - Bi-Fuel	\$41,477
		15 Passenger Van - Dedicated CNG	\$39,074
		15 Passenger Van - Bi-Fuel	\$42,682

How to Use this Contract: The upcoming OSD Update will include a list of vehicles offered by each awarded vendor as well as their respective pricing. Customers may also contact OSD for information on vehicle specifications and contract terms.

Vehicles, Hybrid

Contract #: VEH58	OSD Update # 06-35
Expiration Date:	04/12/07 (w/two 12-mo.options to renew)
Procurement Team Leader:	Ron Whitaker (617) 720-3112
Environmental Contact:	Marcia Deegler (617) 720-3356

Contract Summary: As part of the Commonwealth's efforts to reduce emissions of greenhouse gases, and generally minimize the Commonwealth's impact on the environment, this contract will allow departments and political subdivisions to purchase fuel-efficient (gas/electric) hybrid vehicles for inclusion in their fleets.

Vehicle Parts, Motorized Accessories/Supplies

Contract #: VEH68	OSD Update # TBA
Expiration Date:	9/30/08 (one 12-mo. option to renew)
Procurement Team Leader:	Ron Whitaker (617) 720-3112
OSD Environmental Contact:	Marcia Deegler (617) 720-3395

Contract Summary: This contract has been awarded to twenty-two suppliers, some statewide and others are regional. The contract establishes a list of qualified vendors to provide motorized vehicle parts, accessories and supplies, some of which are remanufactured.

How to Use this Contract: Interested buyers should visit www.comm-pass.com and search under Contract #VEH68 to see the final list of vendors and their pricing options. Please contact the vendors for a complete listing of products and pricing.

Vehicles, Short-term Rental

Contract #: VEH61	OSD Update # TBA
Expiration Date:	11/15/07 (one 12-mo. option to renew)
Procurement Team Leader:	Dan Bowen (617) 720-3112
OSD Environmental Contact:	Marcia Deegler (617) 720-3395

Contract Summary: This contract has been awarded to one service provider, Enterprise Rent-A-Car. The contract establishes services by a qualified vendor to provide the rental of light-duty and basic transportation for a variety of different classes of vehicles, including hybrids. Visit contract # VEH61 at www.comm-pass.com or direct to the contract site at http://www.enterprise.com/car_rental/multiOfferCorpDivs.do?char=A.

Water Treatment Chemicals - Pool Ionization

Contract #: FAC17	OSD Update - TBA
Expiration Date:	01/24/07 (New Contract #FAC46)
Procurement Team Leader:	Dmitriy Nikolayev 617-720-3351
OSD Environmental Contact:	Marcia Deegler 617-720-3356

Contract Summary: While this contract was primarily awarded to provide conventional water treatment chemicals for such applications as drinking water, waste water, boiler plants and swimming pools, there is also a separate category included for the anti-microbial water treatment technology known as “pool ionization” for use in commercial pools.

Product Information: Pool Ionization, already in use in some commercial/public swimming pools in Massachusetts, represents an environmentally preferable alternative to the traditionally heavy use of chlorine and other chemicals. Ionization as it is applied to swimming pools, is the process of using a low voltage current to disperse positively charged copper and silver ions into the water. Since bacteria are negatively charged, these particles are attracted to the ions and are killed off as the charge penetrates the cell walls. The destroyed microorganisms clump together and are easily removed by the pool filter. **These systems result in a reduction of up to 80% in the use of chlorine.**

Commercial ionization units typically consist of a micro processor control box and a set of electrodes composed of copper and silver that are set slightly apart from one another in a cartridge at the site of the pool filter. The control box generates a precise low voltage DC current that travels between the electrodes and produces positively charged ions. Furthermore the water leaving the filter carries some of the ions into the pool, where the ions continue to kill bacteria, viruses, algae and fungi. The design of the control box varies by manufacturer and the installation depends on the type of pool. Please note that all systems offered are approved by the National Sanitation Foundation(NSF) and Massachusetts Department of Health. Reference **Commodity Code # 887-01-05-2045.**

Contractor Information

Contractor	Phone / Fax / Email	Address	Products / Services Offered
Water Purification Associates James Cochin	Phone: 888-214-0999 or 617-524-3160 Fax: 617-524-8042 jrcwpa@msn.com	2 Rockwood Terrace Jamaica Plain, MA 02130	1) All equipment, products and services necessary to install, maintain and service the ionization technology, including training to customers and pool operators as needed. Manufacturer - Superior Aqua Enterprises
Conservation Solutions Dan Cook	Phone: 888-266-1945 Fax: 978-266-1976 ConsvSl@aol.com	62 Great Road Acton, MA 01720	1) All equipment, products and services necessary to install, maintain and service the ionization technology, including training to customers and pool operators as needed. Manufacturer - Caribbean Clear 2) Scale Removal for Pools/Spas Manufacturer - Nexteq Systems 3) “Chemical Free” treatment for boilers, cooling towers & chillers (see vendor for details)

How to Use This Contract: Customers should call the contractor(s) listed above for catalogs and full details on products and services offered by each and the pricing relevant to the specific usage and pool size of the application involved. Calls may also be made to the OSD contacts for information on the many environmental and health benefits of ionization, the negative health issues associated with chlorine, particularly in a pool situation and considerations to make in comparing the cost of both methods.

Master Service Agreements

Asbestos and Lead Paint Abatement Services

Contract #: FAC32	OSD Update #: 01-41B
Expiration Date:	03/25/08 (w/one 24-mo. option to renew)
OSD Procurement Team Leader:	Dmitriy Nikolayev (617) 720-3351
OSD Environmental Contacts:	Marcia Deegler (617) 720-3356

Contract Summary: The contract provides a pre-qualified list of contractors offering asbestos and/or lead abatement services with a total value of less than \$10,000 per job. Any jobs over that amount must follow normal competitive procurement procedures. The contract was awarded on a regional basis with each contractor offering services within their normal business area. Fourteen asbestos/lead paint abatement contractors have been awarded so far.

Environmental and Maintenance Diagnostic Testing Services

Contract #: FAC30	OSD Update # 07-07
Expiration Date:	9/18/2007 (w/one 12-mo. option to renew)
OSD Procurement Team Leader: Dmitriy Nikolayev (617) 720-3351	

Contract Summary: The contract provides a list of pre-qualified consultants to provide diagnostic services of environmental conditions and mechanical equipment. Awarded contractors provide services in the following categories:

- Indoor Air Quality (IAQ) Testing;
- Title V Septic System Inspection;
- Asbestos Testing;
- Soil, Water and Hazardous Material Characterization,
- Infrared Thermography Testing;
- Steam Trap Testing;
- Water Leak Detection;
- Sewer Leak Detection;
- Calibration of Meters and Equipment;
- Lead Testing;
- Integrity Testing – Various Pipes and Vessels;
- Machine Vibration Analysis;
- Fire Extinguisher Testing;
- Fire Alarm Testing.

The contract does not include pricing information. Agencies may call several consultants to get telephone bids or develop and distribute project specifications and ask consultants for a written response.

Fluorescent Lamp, Ballast, Computer and Cathode Ray Tube (CRT) Recycling

Contract #: FAC26	OSD Update #: 03-12B
Expiration Date:	10/14/07 (w/one 12-mo. option to renew)
OSD Procurement Team Leader:	Dmitriy Nikolayev (617) 720-3351

Contract Summary: This Master Service Agreement provides for the collection and recycling of waste materials in two categories:

Category	Description
Category A	Collection and Recycling of Fluorescent, HID and Other Lamps, Ballasts and Mercury Containing Devices
Category B	Collection and Recycling of CRT-Containing Electronics, Computer Components, Computer Peripherals and Miscellaneous Electronics

Mercury is a highly toxic material, which, if released, can damage the human nervous system, and can lead to toxic build up in fish and other wildlife. Thus proper management of fluorescent lamps, which contain mercury, is an integral part of the Commonwealth's efforts to continue improving the condition of our environment. In addition, Cathode Ray Tubes (found in TVs and computer monitors) and which have been banned from disposal sites in Massachusetts, are also being collected and recycled under this contract.

All materials, including mercury from lamps are processed and recycled for re-use, except for certain hazardous materials which are incinerated at a licensed facility. The contractor will provide a certificate of recycling or destruction of the materials collected whichever is appropriate. All pricing below includes the cost of packaging and transportation.

Integrated Pest Management

Contract #: FAC35	OSD Update # 00-20
Expiration Date:	06/30/07
Procurement Team Leader:	Dmitriy Nikolayev (617) 720-3351
AGR Contact:	Trevor Battle (617) 626-1775

Contract Summary: In conjunction with an Executive Order recently signed by the Governor, which requires all state agencies to use an **Integrated Pest Management (IPM)** approach to pest control, The Facilities PMT, in cooperation with the Department of Food and Agriculture, has established a statewide contract to provide IPM services.

This contract provides facilities with a pre-qualified list of contractors experienced in IPM from which to obtain pricing. IPM helps to reduce use of toxic pesticides through an integrated approach to pest control which pursues continuous monitoring, small scale maintenance to plug holes, examination of cleaning and trash services and any other activity which may affect the level of pest infestation.

Scrap Tire Removal/Disposal Services

Contract #: VEH77	OSD Update # 00-41D
Expiration Date:	02/28/07
OSD State Surplus Property Coordinator:	Paul Guerino (617) 720-3146

Contract Summary: This contract was established to provide Commonwealth agencies and political subdivisions with a means to recycle / remove scrap tires and tire shreds in an environmentally sound manner. Under the terms of this contract, such removal may be conducted in one of two ways:

- 1) The contractor may be requested to pick-up the tires or shreds from a Commonwealth location. In this situation, the contractor will remove, pack, make ready for shipment, and incur all freight costs with the transport of all tires (**with or without rims**) and tire shreds from each holding location. (A minimum of 1 ton of material is preferred in order to request this service).
- 2) A state agency or municipality may deliver the material to the contractor's facility. Here the agency or municipality will be responsible for the preparation of the weight slip and bill of lading so that the tires can be accepted by the contractor. It is also advised that a department contact the contractor prior to delivering scrap tires to the contractor's recycling facility.

Contractor Information

Contractor	Phone / Fax	Business Address	Recycling Address
J. P. Routhier & Sons, Inc.	Phone: (978) 772-4251 Fax: (978) 772-5528	256 Ayer Road Littleton, MA 01460	Willow Road Ayer, MA

Service Pricing

Unit Price if Contractor Removes Tires from Facility	Unit Price if Agency Delivers Tires to Contractor*
\$ 250 per net ton	\$ 200 per net ton

Net Ton = 2000 pounds.

**Important: Call first to be scheduled for drop-off. Within a day or two is sufficient.*

How to Use this Contract: For complete details on either the process, including a description of the contractor's responsibilities and the terms and conditions of the contract, please consult the OSD Update at www.comm-pass.com. Then use the "search button" for the contract # VEH60.

Solid Waste and Recycling Services

Contract #: FAC33	OSD Update # 01-28
Expiration Date:	02/13/07 (w/two 36-mo. options to renew)
Deputy Procurement Team Leader:	Joseph Lydick (617) 720-3139
OSD Environmental Contact:	Marcia Deegler (617) 720-3356

Contract Summary: This contract consists of a pre-approved list of contractors, each of whom offers waste collection and/or recycling services, ranging from the handling of a single material, to providing a broad array of waste management services. Please note that this contract does not cover hazardous materials or universal wastes such as fluorescent lamps. This contract does not include pricing as the PMT has determined that specific pricing for solid waste/recycling services across the state would have been impossible to determine. Departments are responsible for soliciting waste and recycling proposals from the approved list of contractors and negotiating pricing based on the type and scope of services being requested.

The contract was re-opened in early 2004 and ten new contractors were added. Services across the board that are provided by various contractors include:

- **Solid Waste Collection** for: MSW, C&D, Bulky waste and ABC waste
- **Recycling Services** for: white office paper, mixed paper, paper shredding, old corrugated cardboard, metal cans and containers, plastic bottles and containers, leaves and yard waste, food waste, scrap metal, textiles, street sweepings, white goods, C&D, ABC waste.

Some contractors also provide **Resource Management Services** in order to assist agencies and others in consolidating their waste management programs to save money on disposal costs wherever possible.

How to Use this Contract: Agencies and departments may choose one or more of the awarded contractors to design a plan for the most efficient and cost effective waste management program that addresses the needs of their facility. See the OSD Update at www.comm-pass.com using the search button and contract # FAC33 to see all the contractors and the services they provide.

Surplus Office Disposal / Moving Services

Contract #:	FAC42
Expiration Date:	09/30/07
OSD Procurement Team Leader:	Joseph Lydick (617) 720-3139
State Surplus Property Director:	Paul Guerino (617) 720-3146

Contract Summary: This contract now combines moving services and paper shredding / document destruction with services to properly remove and dispose of office furniture and equipment that has been determined to be scrap and has already gone through the process of the State Surplus Property Office. In addition, the surplus property vendors awarded on this contract have agreed to research and utilize all means of recycling the various furniture items and/or parts prior to rendering it for disposal.

How to Use this Contract: See the contract on Comm-PASS for the details of the contract and a list of vendors and their contact information at www.comm-pass.com. Use the search button and indicate #FAC42.
